

## TOILET CLEANER HP

### Overview

A neutral detergent cleaner containing non-chlorine bleaching agents for effective cleaning of toilets and urinals and most bathroom and washrooms. The 3-way action of cleaning, bleaching and de-odourising ensures washrooms remain clean and sanitary.

### Technical Description

A viscous, ready-to-use, liquid formulation containing advanced biodegradable cleaners combined with stabilised hydrogen peroxide. When applied the product clings to surfaces increasing contact time for the active ingredients to work. With agitation a stable foam is produced that gently lifts soil from the surface leaving no residues. The result is a pristine cleaned surface.

The formulation is also safe to use in all other washroom and bathroom applications including showers, bath, wet rooms, tiles and flooring.
