

Acid Wash

Overview

An advanced, highly concentrated acidic gel used for the removal of iron and rust stains from rail rolling stock.

Product Description

A unique blend of organic acids specifically formulated for the fast and effective removal of iron stains from rolling stock. Suitable for carriages, railcars, locomotives, trams, underground/metro cars and tracks.

The use of bio-based surfactants make cleaning easy and safe for operators and the environment. Leaves surfaces clean and streak free

Features and Benefits

Features

- Aqueous, water-dilutable formulation
- Contains no petroleum distillates or solvents
- All ingredients are highly biodegradable
- Formulated as a thick gel to enhance cling to vertical structures.
- Improved rinsing performance
- Effective at low temperature
- Effective in both hard and soft water areas
- Easy application and removal

Benefits

- Unique and powerful degreaser for solubilisation and removal iron deposits and rust
- Fast Acting. Shortens clean-up time
- Low cost in use
- Leaves surfaces clean, streak-free and shiny
- Removes old thick build-up of iron dust
- Removes oil and grease, ordinary soil and grime
- Does not form sticky precipitate with hard water

Acid Wash

Application/Directions for Use

Where deposits have accumulated over time, first remove as much debris and solid material as possible

For heavy soiling:

Apply undiluted with a coarse brush. Agitate and allow minimum of 15 minutes contact time. Agitate once more and remove product and debris by rinsing with a hose or low pressure jet. Rinse all equipment after use.

For Light Soiling:

Dilute 1 part product to 9 parts water (1/10). Use as above.

Packaging

2x5L case
20 L jerry cans
200L drum
1000L IBC
